## **SCIENCEMONTGOMERY**

- ScienceMONTGOMERY is one of the largest science fairs in the U.S.
- Every year hundreds of students from our area's public and private schools are eligible to win a multitude of awards at the Fair.
- The Fair is affiliated with the Intel International Science and Engineering Fair (ISEF), whose regulations are followed for safe scientific research.
- Prizes include cash, scholarships, bonds, and internships provided by more than 60 area companies.
- Over 200 volunteer judges represent many of the area's premier science and technology organizations.
- ScienceMONTGOMERY is an all-volunteer, 501(c)(3) organization which relies on private funding to produce the science fair every year.

Students from grades sixth through eighth meet other young researchers throughout the county and discuss their projects.

Students with the top four projects are selected to represent the State of Maryland while competing at the International Science and Engineering Fair
